

Practical Solutions for ISO 14001 Certification

May 24
in Bellevue

A 2-hour Seminar Presented by:

Fulcrum Associates, LLC

Attention small to mid-sized companies
focused on practical solutions for ISO 14001 Certification!

In this two hour seminar, you will learn:

- ISO 14001 – what it is and what it is not
- How to integrate ISO 14001 with AS9100 as one Business Management System
- Some of the most common misinterpretations of the standard
- How to use computerized templates to ease the pain & improve effectiveness
- What to do to prepare for the Certification process
- How to get started and how long you can expect the project to take

Seminar Objective:

- Participants will receive an overview of the ISO 14001 requirements and an easy and effective method to achieve certification
- To explore how to implement a cost effective ISO 14001 system that can provide a return on your investment

Date: May 24th, 2011

Time: 9:00 a.m. to 11:00 a.m.

Cost: \$25

Location: Coast Bellevue Hotel
625 116th Avenue NE – Bellevue, WA 98004

Seminar Sponsor:

Fulcrum Associates has been working with local aerospace suppliers for over 12 years helping them to adopt the various requirements of Boeing and other aircraft OEM's. In doing so, Fulcrum has learned how to apply the aerospace requirements to various sized companies in a cost effective manner. For the last eight years, Fulcrum has conducted a monthly AS9100 Users Group Meeting to assist the aerospace community with practical implementation of the various requirements (D1-9000, AS9100, AS9102, AS9003, Nadcap). One of Fulcrum's clients was the first in the Northwest to establish a fully integrated ISO 9001/ISO 14001 QMS/EMS Business Management System. Properly constructed, the ISO 14001 requirements can be fully integrated with the AS9100 requirements to form a seamless Business Management System.
